25 May 2006

Dear Tony;

I would like to take this opportunity to thank yourself and Poly-Tech for the work that you have done for us at our Warehouse and Packaging Centre here at the Wolf Blass Winery.

Right from the start of the project we knew that this was going to be a difficult task to perform as the works involved working around other trades as well as having to adhere to our production schedules.

Poly- Tech was able to do this with no hesitation or difficulties, and was able to complete the job within the allotted timeframe with a very professional approach.

Once again we thank you for the time and effort towards the completion of our project. Poly Tech's work has been a major factor in the success of or project.

Yours Sincerely,

John White
Projects Engineer
