

ENVIRONMENTAL POLICY

Preamble

Poly-Tech Industrial Services recognise project work activities can have an effect on the environment and are committed to minimising the potential environmental and health impacts as reasonably practicable.

Policy

This policy is to ensure all employees and other persons working for and on behalf of Poly-Tech take all reasonable and practicable care to reduce or prevent any adverse environmental effect during the delivery of project works. Our objectives are to ensure we:

- provide a safe working environment by employing safe work practices and control measures to eliminate hazards in the workplace;
- promote optimal use of resources and prevent releases of pollutants from production to the environment;
- at all times market our products that are safe for their intended use;
- communicate our Policy to all employees to raise their awareness on environmental responsibilities through training and education;
- comply with legal requirements including environmental legislation and regulations, construction industry codes of practice and project specific requirements;
- implement regular review of our EHS Policy and Management System procedures for continual improvement;

As a responsible Applicator, we set up our Management System in accordance with the requirement of ISO 14001:1996.

Management seeks co-operation for all employees and other persons in meeting these objectives and creating a safe work environment.
