To Whom It May Concern:

Poly Tech has approached me and asked me to supply them with a reference letter. This is something that I have no hesitation at all with supplying to them

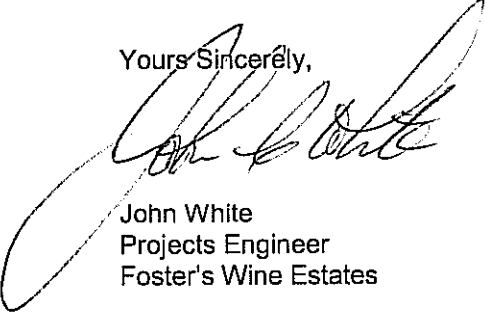

Poly Tech has been part of Wolf Blass Accredited Contractors List for over 5 years now. The professionalism that they bring to the job from the tender stage to the final delivery is something that is a rarity these days. Foster's prides itself on their OH&S standards and Poly Tech have met or exceeded or expectations in this area on all jobs that they have been assigned.

We have recently built a new Warehouse and Packaging Centre in the Barossa Valley and it was a pleasure to work with Poly Tech on this project. The contribution that Poly Tech made is one of the main reasons why our project was such a success. I am happy to say that the price quoted was the only price we had to pay; there was no variations needed as they quoted the job correctly right from the start and most of all the job was done right. Their part of the project was completed on time and within budget

We will continue to use Poly Tech in the future for all of our epoxy coating needs. And wish them continued success in any project they undertake.

Please feel free to contact me at anytime if you wish to discuss Poly Tech further.

Yours Sincerely,

John White
