To Whom It May Concern,

Re : Poly-Tech Industrial Services

I have used the above Company exclusively at various plants, for epoxy flooring/repairs, non-slip surfaces, and fibre glass applications to different surfaces for approximately 15 years.

Their work standards have had to meet all requirements of Australian Quarantine and Inspection Service as well as Foreign Reviewers within the meat industry.

Their ability to perform after hours work, and warranty/repairs to existing work has been excellent.

For further enquiries contact **H Stone – Engineer 08 8532 1955**

Yours faithfully

HN Stone
