

Waterproofing Capabilities

Did you know waterproofing typically makes up between 3 - 5% of the total project spend but is responsible for more that **25%** of problems post construction?

That is why all commercial projects require the complex knowledge and experience to provide the most suitable solution.

Poly-Tech adds significant value to the waterproofing industry with our 25 years experience and water tight relationships with major suppliers. Whether its torch on, adhesive or spray applied, we assist our clients specify the right membrane system in any given environment and remain within your budget. Our market leading application methods protect contents underneath or within, as well as protecting structural integrity.

Effective waterproofing systems rely on exacting application. If not done correctly problems can occur with non adherence to the substrate leading to leakage and corrosion. Don't take this risk so consult the experts!

Case Study 1 – Adelaide Control Tower (Hansen Yunken) – 3 Layer Torch On System
