

Testimonials...

"Poly-tech provided a professional and tailored solution to the various issues that we had. Their work was to a high standard and I'm sure it will stand the test of time"

Justin Boocock
Southern Water

"Poly-Tech always provide a good service and its this consistency that is critical is helping reach our ongoing maintenance objectives"

Gerry Doran - Operations Manager
(West End Brewery) LIONCO

"Poly-Tech was very professional, in every aspect of the job, from quoting to completion. Calls were may to see if it was OK to come on the scheduled day and follow up call to see if we were happy with the job after completion. I would recommend Poly-Tech to any company needing their services."

Ted Disciscio
Priority Health Pty Ltd

"My job was time-critical, and due to other work in the area it required a high level of flexibility. Poly-tech performed excellently; not on one occasion but during every visit to our site."

Mark Leane
Leed Engineering

"I was impressed with the workmanship, attitude and general behaviour of all the Poly-tech employers. The completed job is of a standard that I would not hesitate to recommend. "

Peter Hale
Independent Distillers

"Great job by Poly-Tech. They were happy to rearrange their schedule to fit in with the other work going on around them. They also worked weekends when they were getting behind a bit. The shared walkways & exclusion zones look good and we are now a lot closer to compliance to our Fletcher Building Traffic Management Guidelines."

Jeremy Axton
Tasman Sinkware
